Dear Sir:

Applicants are hereby notifying the U.S. Patent Office that the Information Disclosure Statement ("IDS") listing 13 non-patent publications relating to Low Density Parity Check Codes, filed under this application serial number on March 22, 2005, was inadvertently submitted in this matter. The IDS was meant for a different patent application, and has since been resubmitted in the proper application. The references cited in the IDS (which as indicated above relate to Low Density Parity Check Codes) have no relevance to the subject matter of this application, and thus can be disregarded by the Examiner. Accordingly, please disregard this IDS.
